STATE OF NEW HAMPSHIRE PUBLIC SCHOOLS

Revised Laws, Chapter 135

Sec. 47 Budget. At a meeting held before January first of each year the supervisory union board shall adopt a budget required for the expenses of the supervisory union for the next fiscal year, which budget may include the salary and expenses of supervisors of health, physical education, music, art and guidance, and any other employees, and expenses necessary for the operation of the supervisory union. The supervisory union board shall apportion the total amount of the budget among the constituent school districts on the following basis, provided that each district shall be required to pay for only those services in which they share. The basis for the apportionment shall be one-half on the average membership for the previous school year and one-half on the last assessed valuation of the district. Prior to January fifteenth in each year, the board shall certify to the chairman of the school board of each constituent school district the amount so apportioned. Each district within a supervisory union shall raise at the next annual district meeting the sum of money apportioned to it by the supervisory union board for the expenses of services which each district receives in connection with the union office.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Londonderry School Board:

I herewith submit my twelvth annual report as superintendent of schools of Londonderry.

STATISTICAL REPORTS

Enrollment

The total enrollment for grades one through eight for the period ending January 31, 1954 was 306 as compared to 274 for the same period last year, 252 two years ago and 256 three years previous.

The membership by grades for January 31, 1954 follows:

Grades	1	2	3	4	5	6	7	8	Totals
	53	47	40	27	32	27	30	25	281

The number of Londonderry pupils who were in attendance at high school on January 31, 1954 may be seen from the following:

School	Grades	9	10	11	12	Total
Manchester Central		4	4	2	2	12
Hudson		1	6	2	1	10
Nashua			1			1
Pinkerton		19	19	14	10	43
Hood		16				16
		—	—	—	—	—
Totals		21	30	18	13	82

Statistics for the School Year Ending June 30, 1953

Total registration	287
Half days schools were in session	356
Average membership	260.1
Average attendance	238.3
Per cent of attendance	91.6
Pupils transported at district expense	271

Graduation exercises were held on Saturday, June 13, 1953. Twenty-one pupils received certificates following appropriate exercises presented by the graduates, under the direction of the teachers. Those who completed the eighth grade were:

Avery, Virginia	Jenkins, Barbara
Bienvenue, Beverly	Jenkins, Ruth
Bienvenue, Roger	Ivon, Robert
Boyden, Thomas	Kibbee, Carolyn
Cole, Richard	McKinney, Elizabeth
Cole, Williams	Moody, Ellen
Cross, Dennis	Nugent, Raymond
Eaton, Carol	Poitras, Ernest
Floyd, Francis	Searles, Chester
Innie, James	Severance, Charles
Wickens, Carol	

The enrollment figures are still on the increase. The following table shows the following enrollments as of January 31.

	1-4	Increase	5-8	Increase	Total Enrollment	Total Increase
1944	76		71		147	
1945	91	15	76	5	167	20
1946	87	—4	65	—11	152	—15
1947	96	9	64	—1	160	8
1948	109	13	69	5	178	18
1949	107	—2	96	27	203	25
1950	124	17	102	6	226	23
1951	122	—2	112	10	234	8
1952	130	8	104	—8	234	0
1953	149	19	111	7	260	26
1954	167	18	114	3	281	21
Total increase	91		Total increase	43		134

Thus the enrollment has nearly doubled. A more significant fact is the enrollments in grades 1-3. The current enrollment in these primary grades is only 7 less than the enrollment for grades 1-8 in 1944. The average for these grades is approximately 47. The same trend continued would result in an enrollment of 376 for the 8 grades. The expansion of school plant has made provision for current enrollments plus an additional increase of a single room. Continued growth at the same rate during the next decade as the past will, however, make the present plant quite inadequate. The local situation reflects the national pattern. On a national basis the number of births increased from

2,400,00 in 1937 to an all time high of 4,000,000 in 1953. The mobility of the population makes these figures significant to any community.

The high school enrollment is also on the increase. There is as of January 31, 1954 an increase of 12 over last year. In addition there are 25 in grade 8 with only 13 in grade 12. The prospects of having a high school enrollment of 100 or more within a few years is very bright.

INSTRUCTION AND STAFF

The resignation of Miss Katsakiores required obtaining a replacement. Mrs. Boss was secured to fill the vacancy. The primary enrollment, as anticipated, required that an additional teacher be employed. Mrs. Kirste, an experienced primary teacher was secured. Again it can be said that geographic location enabled the district to employ qualified teachers in every position.

The special fields of music and handwriting were continued. The work in both areas were well worthwhile. There has been an improvement in penmanship and the general appearance and neatness of written work. The music program has continued to be an asset to the school.

The general conduct of pupils and their achievements are commendable. This is possible due to the cooperation of parents with teachers. This is as it should be for both parents and teachers are mutually concerned with one thing primarily—progress and growth of the individual child in all phases of his development.

PHYSICAL PLANT

The addition of class rooms and service areas has alleviated the problem of overcrowded classrooms and has made a decided improvement in the school facilities. In planning the addition, allowances were made so that future expansion, if needed, can be easily made since provision for expanded toilet facilities were included and an allowance was made for the continuation of the corridor to add additional rooms.

The play area has been more fully equipped so that recreational facilities are available for all age groups housed at the building. With the present enrollment the facilities

make possible wholesome recreation for the entire school. This equipment is available for vacation use and the school plant thus becomes more of a community center.

FINANCE

The operational budget shows a gross increase of \$14,261.-64. In view of this an analysis of the areas of increase is desirable.

DEBT SERVICE

This area is responsible for nearly half of the increase. This is statutory and is the result of district action. The principal payment is increased by \$4,000.00. The increase in interest payment is \$1,031.30. Thus this area causes an increase of \$5,031.30.

AUXILIARY AGENCIES

This area is also responsible for a large increase in the proposed budget. The anticipated increase in high school tuition of a minimum of \$10 a pupil plus the fact that the high school enrollment will also increase is responsible for an increase of \$4,875 in this area. The necessity of extending transportation routes is responsible for an additional \$300 increase in auxiliary activities. A decrease of \$100 in health supervision results in a total increase of \$5,075 in this area.

INSTRUCTION

This area is increased in the proposed budget by \$3,171.32. Book and supplies items are increased by \$600. The balance of the increase occurs in the teacher salary item. This increase is due to the fact that the district's teachers have been receiving lower salaries than most districts have been paying. The proposed increase improves the situation so as to attempt to hold the current staff without an excessive turnover in teachers.

OPERATION OF PLANT

The increase of \$900 in this area is due entirely to increased size of plant. The increase is spread over all three items and is proportional to the increased area involved.

FIXED CHARGES

The increase of \$624.37 is due to increased insurance coverage of additional plant and increased retirement. The increase in retirement is due to two factors—an increase in the rate of the district's contribution and an additional teacher.

ADMINISTRATION

The increase of \$259.65 in this area is primarily due to the increased enrollment. This area reflects directly increased enrollments for it includes supervisory union expenses which are by statute figured on enrollments as one of two factors. It, however, is also reflected in the increased income in state aid as well. The figure, state aid, increased \$3,795.30 over estimated income due to increased enrollment and an increased appropriation at state level. This year an additional increase of \$4,042.38 brings state aid to \$14,037.68.

STATE SUPPORT

It is increasingly apparent that state aid to education on a higher level should be one of the major concerns of the next session of the General Court. Real property cannot continue to carry the increased burden. Value of property has not kept pace with increased enrollments and increased costs. Education, which is constitutionally a state function, has been financed almost entirely by local communities. In face of increased enrollments, and the end is not in sight, the state should recognize the need for increased financial support

That the school can function well, as it is, is due to the cooperation of all. The community, officials, and staff are all striving conscientiously to provide the best educational opportunity for children. It is a pleasure to help in this effort.

Respectfully submitted,

EVERTON H. PARKINSON,

Superintendent of Schools
